A proverb says:

*"If you want to get to know a nation, sit at their tables and drink their wine." The taste of food almost always reveals and complements the quality of wine, just as wine enhances the pleasure of enjoying food....*

**Program description:**

**Day 1.... 19.06.2024... NIŠ - Rajačke pimnice - Kladovo ...**

**Breakfast.** Breakfast at the hotel where you are staying. After breakfast, leaving the hotel and going on an excursion) Departure at **12:00**. Driving to **Rajački pimnice** - arrival in Rajac - Wine Village and tour of wine cellars, with wine tasting in some of the cellars.

**Rajačke Pimnice** (or Pivnice, as the other pronunciation of this name) comes from the half of the 19th century. Although in appearance they resemble a miniature village, wine cellars are in fact facilities intended for the production and storage of wine. This style of construction with buried cellars favors the maturation of wine, due to the temperature that does not vary too much throughout the year. Climatic conditions and the type of soil in the Negotin region are very favorable for growing wine, and even the ancient Romans built vineyards in this area. Today, there are around 60 active wineries in Rajački Pimnice, dedicated to the production of quality wines, both from old autochthonous varieties and from imported ones. We will also see what the old village cemetery looks like and hear why there are swastikas on the monuments!

**Lunch with wine:** Peasant appetizer (home-made smoked meat, homemade bacon, homemade cow's cheese), seasonal salad, bread, Rajac sataras or prebranac, peasant meat covered in fat (Vlach trout), homemade cakes or fruit, and homemade red and white wine, brandy, sour water, is in unlimited quantities).

**Continuation of the road to Kladovo.** Accommodation in hotel Aquastars-4\*... Kladovo is a city that is all about the Danube and everything that this river carries in itself. This part of Eastern Serbia is one of the most historically and geographically interesting regions of Serbia and an area that has a number of peculiarities that set it apart. Thanks to this, Kladovo and its surroundings are extremely attractive for tourists and are visited throughout the year. Free time for a walk along the Danube... Dinner. Overnight...

**Day 2 ... 20.06.2024... KLADOVO – Lepenski Vir – Golubac - Belgrade**

**Breakfast.** Leaving the hotel. Driving by bus to Tekija, where we board the boats and sail along the Danube: TEKIJA - TRAJAN'S BOARD - MALI KAZAN - DECEBAL - TEKIJA (sailing duration about 2 hours) During the cruise, guests will have the opportunity to enjoy the most beautiful part of the Đerdap Gorge. You pass by the place where the Roman emperor Trajan left his indelible mark in the rock known as Trajan's Tablet, you pass through Mali Kazan - the place where the Danube is the deepest along its entire course, then you pass the statue of the last Dacian king Decebal carved in the rock and the Orthodox monastery of Mrakonija, there are signal (balloon) stations on the Danube and finally we sail through - the place where the Danube is the narrowest along its entire course. After the cruise, continue the bus ride. Lunch in the "Captain Mišin breg" restaurant with a wonderful view of the Danube and the surrounding area. Continue driving on the road next to the Danube and through the Đerdap Gorge to **Lepenski Vir** - an archaeological site from period of about 6,000 years. BC...and further to Golubac fortress. It was built on the remains of an old Roman fortification. To this day, the exact year when this fortress was built is not known. Based on all the evidence found, it is still impossible to determine who built the fortress, the Serbs or the Hungarians. The town of Golubac was extended until the end of the 15th century, when it got its final appearance. For the first time in history, Golubac was mentioned in Hungarian sources way back in 1335. Power over the fortress alternated between Hungarians, Serbs and Turks until 1481, when the Turks conquered it for the second time and began their centuries-long rule. The rule of the Ottoman Empire ends after the Second Serbian Uprising. In 1868, Golubac was finally handed over to Serbian authorities.
